RETHINK CUBIC

These baths are based on the Lugo models. Rethink Cubic is characterized by the slotted overflow at the front of the bath. The bath has a low rim and a pop-up in the color of the bath. All Rethink Cubic baths can be performed with Riho Fall; this integrated bathtub faucet/overflow makes a separate bathtub faucet superfluous and makes the arrangement even more beautiful, together with a built-in faucet. The bathtubs can also be ordered as Velvet or Plug&Play or Rihopool Air, Flow, Joy or Bliss systems. The Plug&Play baths have the overflow on the wall side and are delivered with assembled overflow, drain and leg set.

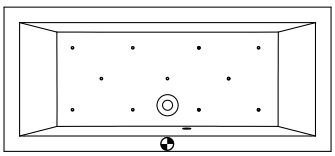

Riho acrylic baths are made of high-quality cast acrylic, fully reinforced and all through white in colour. Our acrylic baths are non-aging and UV resistant. The material is completely pore-free and smooth. Lime will adhere poorly so no bacteria remain, also it makes the baths easy to clean. It surface is pleasantly warm. These double sided baths standard include a legset and an overflow/drain overflow/drain combination.

RETHINK CUBIC WALL

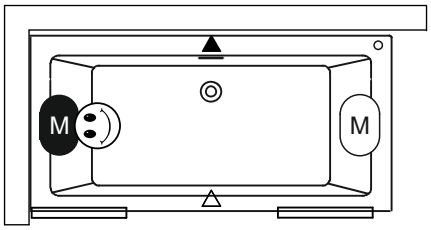

Rethink Cubic Wall is a built-in rectangular bathtub measuring 180x80 cm, the same as the classic Rethink Cubic, but the Wall version has a 12 cm wide edge against the wall. Thanks to this wider edge, you can place your beauty products here and even install a faucet. Rethink Cubic Wall is also characterized by a low edge of 1.8 cm and a narrow slot for the overflow. Available in high gloss or matt white also in Plug&Play version or with Rihopool Air, Flow, Joy or Bliss massage systems.

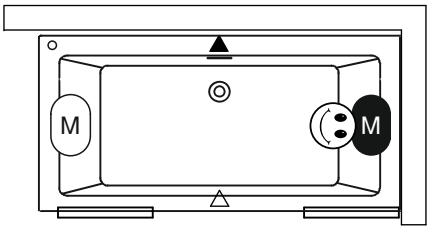

Riho acrylic baths are made of high-quality cast acrylic, fully reinforced and all through white in colour. Our acrylic baths are non-aging and UV resistant. The material is completely pore-free and smooth. Lime will adhere poorly so no bacteria remain, also it makes the baths easy to clean. It surface is pleasantly warm. These double sided baths standard include a legset and an overflow/drain overflow/drain combination.
