NOVIK Z101

The niche door is a door that swings to the left or right, with a continuous profile on the wall.

The Novik symmetrical shower cabins have a classic and at the same time modern appearance. The doors have an open handle and usually open outwards. The profiles are polished aluminium and the 6 mm thick glass is fitted with Riho Shield. Novik guarantees a good price/quality ratio. The cabins and walls are easy to install.

Hardened glass with Riho Shield

Reversible

Thickness of the glass is 8 mm

CE approved, according to EN12150-1

The special seal profile position, the glass profile and the glass screen prevent splashing water making its way out.

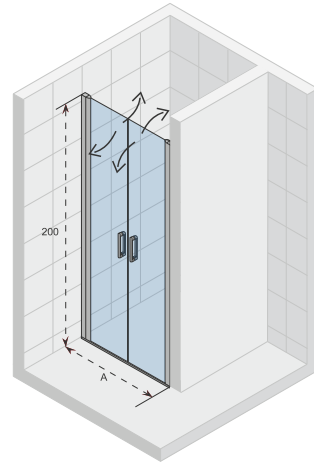

Door with lift mechanism
