

SCANDIC X101

The niche door has two hinges. The niche door can be enlarged by 1 cm using expanding profile.

Scandic shower enclosures and doors are characterized by minimalist and compact rectangular brass chrome or black hinges. The 8 mm clear glass, which is also available in a Satinato version, is equipped with Riho Shield. Because of the elevator hinges, most cabins are available in a left and right version.

Hardened glass with Riho Shield

Thickness of the glass is 8 mm

The glass profile and glass wall provide the bathroom with protection from splashing water.

Door with lift mechanism

Including wall magnetic profile

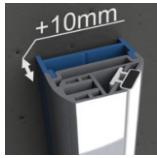

Satinato glass possible (not reversible)

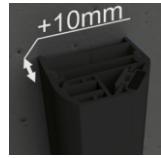

CE approved, according to EN12150-1
