## GRID GB101

Grid is a matt black shower series with an industrial look. The glass is fully enclosed in profiles. These profiles are made of powder coated aluminum. Grid is easy to install and has a high stability. The glass is divided in three planes by horizontal bars that are only placed on the outside. The plane division on the inside is made with a masking print, which makes it easier to clean. The door rotates in both directions.

Niche door, opening inwards and outwards. The hinge side of the door is reversible.

Hardened glass with Riho Shield

Parts are reversible

Thickness of the glass is 6 mm

Door with lift mechanism

Profile at the bottom acts as a dam against water spraying on the showertray and splashes of water

Possible to combine with and create other setups by using the available H-profile

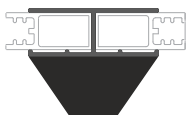

Magnetic closing of the door

CE approved, according to EN12150-1

Article number	H x W (cm)	A (cm)	Glass (mm)
<b>G004001121</b>	200 x 80	78,3 - 80,7	6
<b>G004002121</b>	200 x 90	88,3 - 90,7	6
<b>G004003121</b>	200 x 100	98,3 - 100,7	6

### Optional to purchase

## GRID GB104

Grid is a matt black shower series with an industrial look. The glass is fully enclosed in profiles. These profiles are made of powder coated aluminum. Grid is easy to install and has a high stability. The glass is divided in three planes by horizontal bars that are only placed on the outside. The plane division on the inside is made with a masking print, which makes it easier to clean. The door rotates in both directions.

Fixed glass wall (30 cm wide) with niche door, opening inwards and outwards. The hinge side of the door is reversible.

Hardened glass with Riho Shield

Parts are reversible

Thickness of the glass is 6 mm

Left = right (hinge side reversible)

Profile at the bottom acts as a dam against water spraying on the showertray and splashes of water

Possible to combine with and create other setups by using the available H-profile

Magnetic closing of the door

CE approved, according to EN12150-1
